

November 16, 2018

Dear Stakeholder,

As you may know, High Bridge Wind, LLC (“High Bridge”) has proposed to construct a major wind electric generating facility with a nameplate capacity of up to 100-megawatts in the Town of Guilford, Chenango County, New York (the “Facility”). To build the Facility, High Bridge must obtain a Certificate of Environmental Compatibility and Public Need from the New York State Board on Electric Generation Siting and the Environment. This process is required under Article 10 of the New York Public Service Law (“Article 10”).

On or about November 30, 2018, High Bridge plans to take the next critical step in the Article 10 process: the filing of a Preliminary Scoping Statement (“PSS”). The PSS will outline the scope and methodology of the many environmental studies the State will require for this Facility. It will also provide an overview of the information to be submitted with the formal Article 10 Application.

The PSS affords stakeholders like you the opportunity at this early stage to review and comment on the proposed studies and information-gathering efforts, which in turn will be used to develop the proposed Facility layout and the Article 10 Application.

Enclosed please find the legal notice of the PSS filing as well as a notice of an Open House that will be hosted by High Bridge on November 28, 2018 at the Guilford Town Hall. The PSS legal notice explains the technical aspects of the Article 10 Scoping Phase and offers potential venues and contacts for obtaining further information. The PSS will be filed electronically on the Siting Board’s website (<http://www.dps.ny.gov/SitingBoard>) and printed copies will be available for public review at the local document repositories identified in the enclosed legal notice.

Persons who wish to become a party to this Article 10 proceeding or those who wish to receive electronic notices, should visit the Siting Board’s website (see above) to sign up for the Party or Service List, respectively.

If you have any questions, concerns, or would like to be added to the Project Notification List, please contact Alec Jarvis, the Director of Development for High Bridge, by phone or email, or stop by the Open House where additional project information will be available.

We look forward to hearing from you.

Sincerely,

Alec Jarvis

High Bridge Wind Project

Chenango County, New York

NOTICE OF SUBMISSION OF PRELIMINARY SCOPING STATEMENT

High Bridge Wind, LLC (“High Bridge” or “Applicant”) is proposing to construct a major wind electric generating facility up to 100 megawatts (MW) in size in the Town of Guilford, Chenango County, New York (“High Bridge Wind Project” or “Facility”). To construct the Facility, the Applicant must obtain a Certificate of Environmental Compatibility and Public Need from the New York State Board on Electric Generating Siting and the Environment (“Siting Board”) pursuant to Article 10 of the Public Service Law and the Siting Board’s rules (16 NYCRR Part 1000). This notice announces that on or about November 30, 2018, High Bridge will file a Preliminary Scoping Statement (“PSS”), pursuant to 16 NYCRR 1000.5.

What is the PSS?

The PSS will describe and identify: 1) the environmental setting in the Facility area proposed, 2) the potential environmental and community benefits and impacts from construction and operation of the Facility, and 3) the Facility’s anticipated contribution to the State’s achievement of its renewable energy generation goals. The PSS will also identify and describe the proposed environmental studies the Applicant plans to conduct during the Article 10 process in order to assess potential impacts to:

- Land uses in the Facility area;
- Public health and safety;
- Ecological resources, protected species and habitats, and water resources;
- Communications, transportation, and utilities;
- Cultural, historical, and recreational resources;
- Visual impacts and screening;
- Sound; and
- The statewide electrical system.

Furthermore, the PSS will outline potential measures to minimize Facility impacts, reasonable alternatives to the proposed layout, other required permits/authorizations, and other relevant information to be provided in the Article 10 Application.

High Bridge Wind Project

The Facility is proposed to include the installation of up to 30 wind turbines, associated electrical collection lines and substation(s), access roads, wind measurement towers, and an Operations and Maintenance building. The Facility would interconnect to the New York State power grid at a 115-kV electrical transmission line currently owned by the New York State Electric and Gas Corporation (“NYSEG”) in an area northeast of Guilford Lake. High Bridge also proposes to install battery storage.

For more information on the proposed Facility, please visit the Siting Board’s website under Case 18-F-0262, or the Applicant’s dedicated project website (<http://www.calpine.com/highbridgewind>). Hard copies of the PSS containing project details can also be found at the local document repositories listed at the end of this notice.

21-Day Public Comment and Response Periods

The PSS is designed to gather input from the public and interested agencies on the scope and methodology of studies to be conducted in support of a future Article 10 Application. The PSS filing will start a 21-day period where the public—any person, agency or municipality—may comment on the scope and methodology of the studies proposed. Comments on the PSS may be submitted to the Applicant with copy to the Secretary of the Department of Public Service at the addresses provided below.

The Applicant will prepare a summary of the material comments and its reply to those comments within 21 days after the closing of the comment period. The scoping process is overseen and mediated by a Hearing Examiner who will also schedule a pre-application meeting and provide additional notice for it. The pre-application meeting marks the beginning of stipulation negotiations and allows for the discussion and award of intervenor funding.

Intervenor Funding

To facilitate participation by local municipalities and community groups, High Bridge will provide \$35,000 toward an intervenor fund. Funds will be disbursed by the Hearing Examiners to groups seeking assistance with expenses associated with their participation in the Article 10 process during the pre-application review phase. By law, at least 50 percent of these intervenor funds are reserved for impacted municipalities. Once the PSS is filed, the Hearing Examiners will issue a notice that such intervenor funds are available. The notice will describe the kinds of expenditures which are eligible for receipt of those monies and will provide instructions and a schedule for interested groups to apply for pre-application intervenor funds. Once the formal Article 10 Application is submitted, additional application-phase intervenor funding will be made available to facilitate municipal and party participation in the Application and Hearing phase.

Contact Information

To obtain information regarding the project, please contact:

Hard copies of the PSS and related project documents are available for review at the following local document repositories: Guilford Town Hall, 223 Marble Rd., Guilford, NY 13780; Guernsey Memorial Library, 3 Court Street, Norwich, NY 13865; Oxford Memorial Library, 8 Ford Hill, Oxford, NY 13830; and Gilbertsville Free Library, 17 Commercial Street, Gilbertsville, NY 13776.

Digital copies of the PSS and related project documents are available on the Siting Board's Docket for this case, which can be accessed by visiting <http://www.dps.ny.gov/>, going to "Search" on the top of the webpage and then searching using the Case Number 18-F-0262, or by going to the project website maintained by the Applicant at <http://www.calpine.com/highbridgewind>.

Requests for Notices

Any interested member of the public may file a request with the DPS Secretary to receive copies of all notices concerning the project, including but not limited to notices regarding any proposed pre-application stipulation. Written requests should be sent to the DPS Secretary at secretary@dps.ny.gov or sent by mail to the following address:

Honorable Kathleen H. Burgess
Secretary to the Commission
NYS Public Service Commission
Agency Building 3
Albany, New York 12223-1350

Notice of Open House for the High Bridge Wind Project

High Bridge Wind, LLC is pleased to invite you to attend an Open House regarding its proposed 100-megawatt wind energy generating facility in the Town of Guilford. The Open House will be held **Wednesday November 28, 2018** from 4 p.m. to 6 p.m. at:

Guilford Town Hall
223 Marble Road
Guilford, NY 13780

All members of the public are invited. At this Open House, project representatives will be available to provide information on the proposed project and to answer questions from members of the community.

More information on the High Bridge Wind Project can be found at <http://www.calpine.com/highbridgewind> and on the New York State Siting Board's website (<http://www.dps.ny.gov/SitingBoard>) under Case 18-F-0262. Copies of many materials discussed at this Open House will be available for public review on these websites following the event.

Hope to see you there!
